

# THE OPAL MINE TOUR

---

The 'Opal Mine Tour' is a unique look into the early history of the Opal Field in White Cliffs NSW, before entering into a working and producing opal mine. Situated within the Historic Diggings of the 1890's, visitors get the opportunity to walk down a ramp from the surface carved through the multiple levels of diggings, to reach a depth of 45 feet.

It is at this level you will see the demonstration of the mining equipment and even have a chance to dig on the mine face yourself. You too may be one of the lucky visitors who have actually discovered opal in Graeme's mine, adding to the growing list.

**WHERE: Leaving RED EARTH OPAL CAFE**

**WHEN: 3pm most days**

**MUST: All participants must wear enclosed shoes.**

**COST: Adults \$20 | Children \$10**

All inquiries to [info@reearthopal.com](mailto:info@reearthopal.com) or telephone (08) 80916900
